Unlock FREE Training and Certifications!

CSI Linux is leaping forward! We're excited to usher in a more community-engaged era of training. As we embark on this adventure, we present you with a unique pilot program. Dive deep, get hands-on, and score course codes and exam vouchers!

Step into the CSI Linux Experience: We're kickstarting this initiative with our DFIR learning journey, highlighting the OSINT courses. Our mission? To enhance our platform, fortify education, and weave a stronger bond within our community.

Chart Your Course & Claim Your Voucher!

- **Kick-Start Your Learning:** Begin with our complimentary CSI Linux Basics course (CSIL-CI) or pick up where you left off with your most recent CSIL course.
- **Share & Shine:** After completing your course, pen down your insights and discoveries.
- Voice Your Vision: We value feedback! Share with us what you think could elevate our courses.
- **Craft a Comprehensive Walkthrough:** Help us and future learners by creating detailed walkthroughs or lab write-ups. Showcase tools from the course that did not have a write-up or introduce new ones that can enrich the learning experience.
- **Email to Elevate:** Send over your masterpiece to us and, as a token of our gratitude, bag an exclusive code for the CSIL course.

Didn't Ace the Exam? Get a Second Shot!

Missed out on passing marks? No worries! Craft a walkthrough or lab writeup encompassing the exam objectives, and you might just clinch a free retake voucher.

Your Words, Our Canvas:

Worried about formatting? We've got you covered with our preset template. As you sculpt the labs through your write-ups, you're not just learning but also teaching. Include screenshots for clarity, and guess what? Your prowess might just land you a feature in Cyber Secrets! Proudly flaunt your contribution by adding the ISBN# to your Amazon Author profile.

All set? Fire up those write-ups and send them over to support@csilinux.com.
